3. Air Horn, 1.75" SU and Zenith-Stromberg Carburetors P/N 3894-01 "Will require custom fitting to Carburetor Flange"

\$69.99

\$49.99

“These high-quality machined aluminum velocity stacks are designed specifically to fit -1.75 SU and Zenith Stromberg carburetors on many Triumph and MG engines. Dyno tests have shown an amazing increase of 4-6 horsepower on four- cylinder Triumph engines, and up to an 8 horsepower increase on the Triumph GT-6.”

Custom Velocity Stack Filter - 5.00" Dia. P/N 3894-127 \$49.99

“These super-low-profile filters slip over the end of your air horns and require less than one inch of clearance from the end of the horn. The unique stainless- steel screen and mesh flows better than conventional air cleaners”
