

Parameter				Value
Measurement read				
09:41:56	N/A.	Battery voltage		12.90 (Volts)
Check all learnt keys				
09:42:21	KVM	Status		OK ((
09:42:21	KVM	Number of keys programmed		2.0 (Integer) ((
09:42:21	KVM	Number of keys found		2.0 (Integer) ((
Number of ignition key codes supported				
09:42:31	IPC	PATS number of ignition key codes supported		2.0 (Integer) ((
Start authorisation status				
09:43:16	IPC	Start authorisation status - Immobilizer - Target identification challenge status		Enabled ((
09:43:16	IPC	Start authorisation status - Immobilizer - Target identification valid transponder		True ((
09:43:16	IPC	Start authorisation status - Immobilizer - Target identification verifier ok		True ((
09:43:16	IPC	Start authorisation status - Immobilizer - Target identification stored		True ((
09:43:16	IPC	Start authorisation status - Electronic steering column lock - Target identification challenge status		False ((
09:43:16	IPC	Start authorisation status - Electronic steering column lock - Target identification valid transponder		True ((
09:43:16	IPC	Start authorisation status - Electronic steering column lock - Target identification verifier ok		True ((
09:43:16	IPC	Start authorisation status - Electronic steering column lock - Target identification stored		False ((
09:43:16	IPC	Start authorisation status - Ignition - Target identification challenge status		True ((
09:43:17	IPC	Start authorisation status - Ignition - Target identification valid transponder		True ((
09:43:17	IPC	Start authorisation status - Ignition - Target identification verifier ok		True ((
09:43:17	IPC	Start authorisation status - Ignition - Target identification stored		True ((
09:43:17	IPC	Start authorisation status - Fuel pump - Target identification challenge status		True ((
09:43:17	IPC	Start authorisation status - Fuel pump - Target identification valid transponder		True ((
09:43:17	IPC	Start authorisation status - Fuel pump - Target identification verifier ok		True ((
09:43:17	IPC	Start authorisation status - Fuel pump - Target identification stored		True ((
Brake fluid hydraulic pressure				
09:43:42	ABS	Brake fluid line hydraulic pressure		34.0 (bar) ((
Engine input 1				
09:44:09	PCM	Starter relay monitor		true ((
09:44:09	PCM	Crank request		true ((
09:44:09	PCM	Ignition switch		true ((
Engine output 1				
09:44:12	PCM	Starter relay		true ((
09:44:12	PCM	EMS relay		true ((
