

2003 S-TYPE - Climate Control System - General Information - 412-00

Description	Specification
Air conditioning refrigerant	HFC 134a
Air conditioning compressor oil	WSH M1C231-B

Capacities

Description	Grammes
Air conditioning refrigerant	750

Refrigerant Oil Adding Capacities

Item	Milliliters
Condenser core and desiccant bag	Add 33
Desiccant bag	Add 8
Evaporator	Add 46
Air conditioning (A/C) compressor - If the quantity of oil taken from the compressor is less than 90 ml	Add 90
Air conditioning (A/C) compressor - If the quantity of oil taken from the compressor is between 90 ml and 200 ml	Add up to a maximum of 200
Air conditioning (A/C) compressor - If the quantity of oil taken from the compressor is greater than 200 ml	Add 200
Air conditioning lines - If air conditioning has been operational.	Add 10 per line
