

1998 XJ RANGE - Interior Trim and Ornamentation - 501-05

Passenger Assist Handle 76.58.30

Removal

E36225

1. Using a piece of wood or similarly soft material, press inner end of each screw cover to release outer clip.
2. Remove screw covers, slacken and remove securing screws and remove grab handle from cantrail.

Installation

1. Position grab handle and coat hanger hook at cantrail
2. Ensuring that cantrail trim pads are correctly aligned, fit and tighten the grab handle securing screws.
3. Slide each screw cover inner end foremost, onto end of grab handle and press outer end to engage clip.
