Winter (Snow) Tire Specifications – XJR Sedan

MODEL 1995 MY XJR Sedan  
VIN 720001-ON

**ISSUE:**

The winter (snow) tires specified in the 1995 MY XJR Vehicle Care handbook are not available. The alternative tire, Pirelli 235/45 R 17 93H Winter 210P, is slightly smaller in diameter than the original equipment Pirelli P Zero 255/45 ZR 17 tire. This difference will result in a slight speedometer error.

**ACTION:**

If customers with XJR vehicles require winter (snow) tires, Pirelli 235/45 R 17 93H Winter 210P tires may be fitted.

**IMPORTANT:** Winter (snow) tires **MUST** be fitted to all four wheels.

Advise the customer of the following:

- Pirelli 235/45 R 17 93H Winter 210P must be fitted to all four wheels of the vehicle in order to preserve vehicle handling characteristics and the operation of the ABS and traction control systems.
- Pirelli 235/45 R 17 93H Winter 210P tires are speed rated for 100 mph with the tire pressure set at 28 psi.
- Tire pressure should be set as follows:

	FRONT	REAR	SPEED RATING
Comfort setting	28 psi	28 psi	100 mph
Normal setting	34 psi	34 psi	130 mph

**PARTS INFORMATION:**

Source tires from a Pirelli tire dealer.
